Prepare well and Get ready to launch the content

Effort Calculation

Content Development and Review

- 1 day effort for 2 hours content development (including ppt and activity)
  - Example: if you prepare 18 hours content - effort is 9 days

- 1 day effort for 4 hours content review (including ppt and activity)
  - Example if you review 18 hours content - effort is 4.5 days

Question Creation and Review

- 10 accepted questions - 1 day effort
- 20 reviewed questions - 1 day effort

INSTRUCTIONS

Credit can be given only when the content is launched

Estimate the effort required for content work and connect with the supervisor. Get approval from supervisor by sharing the content plan well in advance.

When assigning the SME for content development, Reviewer will also be assigned. As and when the content is developed it should be reviewed by SME immediately.

Thank you
